Since 2001, Salto Systems has been delivering state-of-the-art wire-free and keyless electronic access control solutions. Salto is driven by continuous improvement and is committed to developing the most technologically-advanced and flexible electronic locking solutions for any kind of door and user needs. Salto has established itself as a global market leader in electronic access control solutions.

Salto continues to grow the value of its brand, and today, Salto is synonymous with innovative solutions that set new standards in security, manageability, flexibility and design that bring real-world benefits. The pioneering Salto Virtual Network SVN data-on-card and technology platforms provides stand-alone, smart locking solutions that continue to set Salto apart. More recently, the company's technological expertise has brought Salto to leading positions in both cloud-based access control technology and mobile access solutions.

Having revolutionized access control in a vast number of industries and applications – from office, education, healthcare, transport and commercial buildings to business access, hospitality and residential – Salto continues to deliver industry-leading electronic locking solutions to markets across the globe.
